

Perfect Bind Cover Layout

Note: Cover must always be 1/4" larger on all 4 sides than the inside sheets or folded sigs to allow for the glue trap.

Please provide a sample (blueline or mock up of some sort) before printing to avoid any mistakes. Gutters can be increased proportionately depending on the thickness of the paper and the final size desired. Make sure to allow the same head and foot trim on the covers as on the guts. Layouts provided are a courtesy for your reference. BJ Bindery will not be responsible in any way for errors that can occur in the interpretation of this layout.
